

# CK90

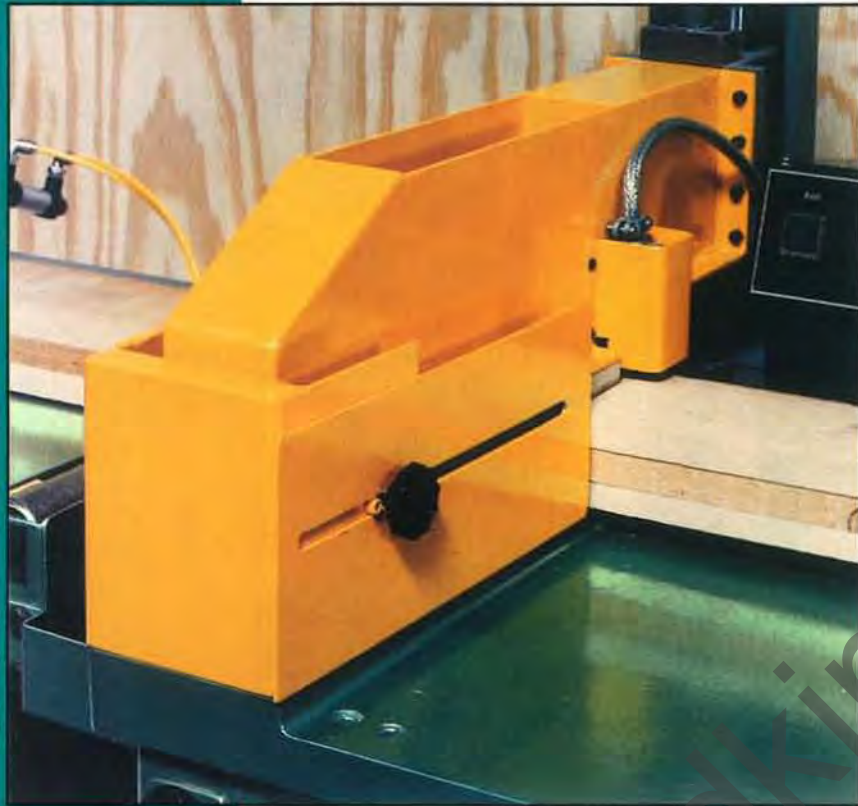

HIGH SPEED CROSS-CUT SAW

In excess of 100 cuts  
per minute

# DESIGNED FOR HIGH PRODUCTIVITY WITH SAFETY IN MIND

The new CK high speed cross-saw is a rigidly constructed yet affordable machine with Universal appeal in the Woodworking Industry.

The CK pneumatic undertable cross-cut saw is ergonomically designed for greater operator comfort, safety and high productivity.

- **High blade speed** ensures a clean cut and longer blade life.
- **High productivity** through infinitely variable cutting stroke/speed (in excess of 100 cuts per minute).
- **Ergonomically designed** "comfort well" allows greater ease of handling.
- **Safety top clamp** with built in micro switch prevents incorrect machine operation.
- **Increased productivity** means increased profits for you.

## SPECIFICATIONS

Main Motor	5.5kw. (7.5h.p.)	Dust extraction requirement	11m <sup>3</sup> /min.
Spindle Speed	2200r.p.m.	Table height	910mm (36")
Cutting capacity	305 x100mm (12"x4")	Table size	640x850mm (25"x33"/)
Saw Blade dia.	508mm (20")	Weight	362Kg.
Air requirement	6bar, 80p.s.i.		

## OPTIONS

Roller Tables	Built-in Trim Stop
Manual and Pneumatic Stops	Pneumatic Kickers
Automatic Stop Systems	Foot Pedal Control
Gauge Bar and Rule	7.5kw. (10h.p.) Main Motor
